

AE&FRE 304 Home Again!

Bring living history home to the Fox River Valley. The Fox River Trolley Museum recently was given the privilege and opportunity to restore and preserve Aurora, Elgin and Fox River Electric (AE&FRE) 304, an artifact that is an important part of the history and heritage of the Valley and northern Illinois. It is truly representative of a bygone era which at the same time represents in its own way the opening again of an era of environmentally sound electric propelled transportation in the United States. The cost of this restoration and preservation has placed a burden on the Museum that it alone can not bear. This includes refurbishing the seating and the electrical and mechanical systems. There is more to do though, including painting the car in its original yellow and orange colors.

The Museum cannot do all this work by itself. We need your help!

We are inviting the greater Fox River Valley community to participate in the opportunity with us by making a donation now using the convenient form below or the internet connection "Donate" button.

Please send your donation by mail with form below.
